

For the 2 mockups, you can explore designing in 2 different directions :

1. Clean

For the cleaner version, it will be easiest for you to refer to the official dunkin donuts website. It is usually constructed of images and graphics that are very modern and organized.

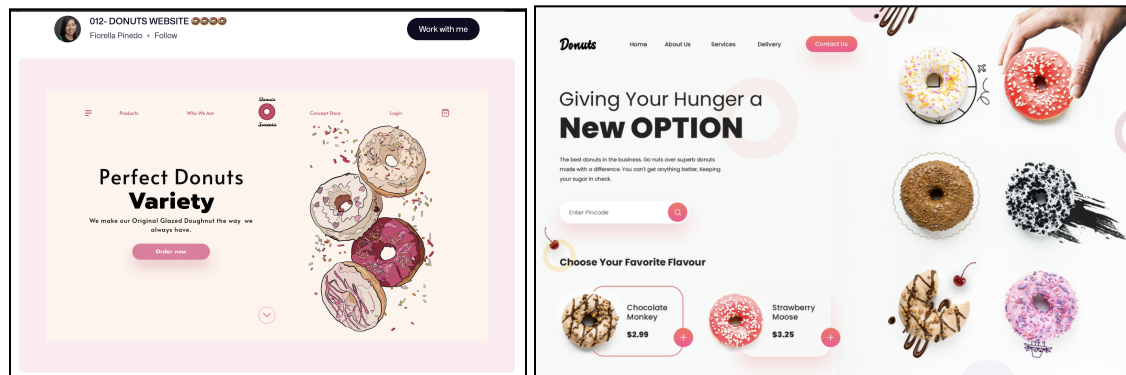

2. Playful

This is an opportunity to be a little more creative with the graphics, designs, and especially typography. As you mentioned, you can utilize the simple/circular donut shapes.

→ I also think this is the cutest and most creative thing.

In the end, for the final design, you can combine these two styles.
